Waste Stream Name : **OIL CONTAMINATED DEBRIS, VEGETATION & SOIL**
Expiration Date : **01/26/2012**
Process : **DIRECT LANDFILL**

Dear Geoffrey Harris,

US Ecology recently received approval from the Nevada EPA for the disposal of the subject waste stream at our fully permitted RCRA, TSCA and CERCLA approved landfill facility at Beatty, Nevada. US Ecology appreciates the opportunity to manage this waste stream for you and looks forward to working with you for all your disposal needs.

The Uniform Hazardous Waste Manifest and Truck Inventory Sheet must accompany each shipment. If the shipment is lab waste, drum inventories must accompany the manifest. Also, the drum number is to be placed on top of the corresponding drum.

Please notify the Beatty disposal facility at least 48 hours prior to shipment and provide the facility with the following information:

- Date of Arrival
- U.S EPA Generator ID Number
- Waste Stream Number(s) and Total Quantity of each waste stream shipped
- Indicate if the waste is for Stabilization, Debris Treatment, or Direct Landfill
- Indicate if the waste is being shipped in bulk or in containers

The following is required when the load is received at US Ecology.

- A manifest
- A Truck inventory
- A Land Disposal Restriction Form (LDR), if applicable
- The driver is required to have all necessary p.p.e., including an appropriate respirator, in order to offload the waste.

Under conditions of our operating permit, US Ecology is required to inform you that we have all the appropriate permits in order to manage your waste stream.

Should you have any questions, Please contact your US Ecology Technical Sales Representative or Beatty customer service at (800) 239-3943. Please refer to the US Ecology Waste Stream Number above when making inquiries.

It is important that each shipment be scheduled at least 48 hours in advance. Unscheduled loads will be offloaded as time permits but may be subject to delay or rejection.

Sincerely,

MAYO SERRANO
